

Birmingham, Alabama, August 23, 2016 - We are excited to announce the completion of our recycled garden project. CAM South, working with partners from the Alabama Environmental Council and Artificial Grass Recyclers, installed approximately 1,200 sq ft of recycled artificial grass over a recycled crushed glass base layer.

- ★ Low Maintenance - Saves Water & No Mowing
- ★ Cost Effective - No Landscape Expense
- ★ Looks Like Real Grass - No Damage & Perfectly Manicured Year Round
- ★ Easy to Install

Visit camsouth.com for a full photo timeline of our project.
