

Birmingham, Alabama, March 2, 2017 - We are pleased to announce a few exciting updates for the new year.

- New markets
- New account manager
- New services

New Market

CAM South began operations in the Auburn - Opelika market during Q4 of 2016. Established at the request of an existing client, the Auburn market is attractive to CAM South and our growth plan. We are actively looking to expand our market share and build our onsite team. If you need parking lot sweeping between Birmingham and Auburn, please contact us.

Account Manager

It is our pleasure to present Caleb Guy. As an Account Manager, Caleb is positioned to be an integral part of our team. He is involved with our day-to-day operations in Birmingham, as well as the primary contact for our Operations and New Business in Auburn - Opelika.

He can be reached at caleb@camsouth.com

New Services

Expanding on our core business of parking lot maintenance, we're happy to announce two new services; Light bulb replacement and Sealcoating. Both services fit nicely into our organization. We've added a 35' bucket truck to our fleet and are actively bidding sealcoating jobs for the upcoming season.

When one call does a "lot"

CAM South provides a portfolio of common area maintenance, specifically parking lot maintenance; including sweeping, porter service, and power washing. We have also built a partner network to provide parking lot striping and asphalt patch & repairs
